

# Pre Hospital Trauma Life Support

## (PHTLS-Provider Course)

- **Course Description:**

**This is a highly interactive two-day scenario-based course and Instructors facilitate interactive lecture discussion. Course material includes a text book and a companion CD-ROM containing video clips, review questions and answers for self-assessment. This Course is co-sponsored and follows the guidelines and standards set by the National Association of Emergency Medical Technicians (NAEMT) in cooperation with the American College of Surgeons (ACS) Committee on Trauma in USA. This course combines both basic and advanced trauma concepts and skills in one definitive resource. Course material is renewed every 4 years.**

- **Course Objectives:**

**Participants will understand the physiology and kinematics of trauma, and improve their rapid assessment, diagnostic and intervention skills when handling adult and pediatric multi-system trauma patients. Participants will apply the principles of PHTLS in the scenario-based skill stations. Moulaged patient models are used to simulate the various trauma situations and guide the participant.**

- **Target audience/requirements:**

**First Responders; EMT-B, EMT-I and EMT-P; Physicians; Nurses; and other licensed health care professionals who would benefit from attending this course.**

- **Accreditation and awards:**

**A successful candidate will receive a provider card and a certificate from NAMET in cooperation with ACS that remains valid for four years. Candidate will also receive Continuing Medical Education (CME) hours by the (NAEMT) Association.**
