Prince Hashim Bin Abdullah II Military Hospital - Aqaba

Inaugurated by His Majesty King Abdullah II Ibn Al-Hussein
1 September 2013

Collaboration with International Organizations

President's Welcome Note

Dear Colleagues and Friends,

It gives us great pleasure to invite you to the **7th International Conference of the Royal Medical Services** and **4th ICMM Pan Arab Regional Working Group Congress on Military Medicine** to be held at **King Hussein Bin Talal Convention Center - Dead Sea - Jordan**, under the Patronage of **His Majesty King Abdullah II Ibn Al-Hussein** during the period **4-7 November 2014**.

We are honored to host this international conference after the great success of previous RMS Biennial International Conferences. It will be attended by more than 4000 participants; local, regional and international in the fields of Medicine, Dentistry, Pharmacy, Nursing, Allied Health Professions, and Military Medicine.

Previous RMS Conferences have had active participation from many International Organizations and Societies. This Conference is no exception with participation from: **International Committee of Military Medicine (ICMM)**, **Pan-Arab Regional Working Group for Military Medicine**, **Royal College of Surgeons of England**, **Royal College of Physicians**, **World Federation of Hemophilia**, **International Committee of the Red Cross**, **The International Spinal Cord Society**, **The National Arab American Medical Association**, **Centers for Disease Control and Prevention**, **Thomas Jefferson University**, **US Armed Forces Health Surveillance Center**, **US Military HIV Research Program**, **Walter Reed Army Institute of Research**, **Mediterranean Task Force for Cancer Control**, **International Diabetes Federation**, **Sidra Medical and Research Center**, and **Ponseti International**.

The Royal Medical Services is committed to ensuring that the **4th ICMM Pan Arab Regional Working Group Congress on Military Medicine** has a specific focus to identify the changes in Military Health Care practices needed to prepare Military Health Care providers for the new challenges ahead.

Many esteemed International Guest Speakers from all over the world from different specialties and backgrounds have been invited to give lectures and participate in panel discussions covering New Frontiers in Health Care & Military Medicine, as well as conduct a myriad of workshops.

I would also like to thank our many Sponsors for contributing generously to the conference whether by taking a part in the Medical Exhibition or by sponsoring Guest Speakers for the many workshops at hand.

Beyond the myriad scientific activities, we hope you enjoy your stay at the Dead Sea, where the weather this time of year is excellent, and also get a chance to explore some of the many other wonders of Jordan. A visit to Petra will give you the opportunity to get to know more about the beautiful Rose City along with its stunning scenery and unique history. We wish you all a memorable scientific & social experience and a most enjoyable stay in Jordan.

President of the Conference

Director General of the Royal Medical Services of Jordan
Major General Khalaf Al-Jader Al-Sarhan MD FRCP

During more than ninety years of its existence, the International Committee of Military Medicine (ICMM) has always tried to facilitate contact between the Military Health Services all over the world, in order to strengthen mutual understanding and exchange of experiences and ideas somehow related to Military Medicine. Initially, this was achieved by organizing a biennial World Congress and by the publication of a scientific journal: the "International Review of the Armed Forces Medical Services".

In order to facilitate contact between members of different Military Health Services of the same region, the ICMM decided several years ago to create Regional Working Groups. These Regional Working Groups could, alternately with the ICMM World Congress, organize regional congresses and regional activities. The Pan Arab Regional Working Group is one of the six regional groups within the ICMM. This Regional Working Group has already organized now for several years very successful regional congresses.

The ICMM is very delighted that the Royal Medical Services of Jordan organizes this year the 4th ICMM Pan Arab Regional Working Group Congress on Military Medicine.

The Royal Medical Services of Jordan have experience in organizing military medical conferences: they organize this year at the same time for the 7th time the "International Conference of the Royal Medical Services".

ICMM Pan Arab RWG Welcome Note

The ICMM is therefore convinced that the organization of the 4th ICMM Pan Arab Regional Working Group Congress on Military Medicine will also be successful.

I hope that a lot of people - not only people of the Arab region but also of beyond - may make use of the opportunity for contact and exchange of experience between the members of the various Military Health Services.

ICMM is very grateful to His Majesty King Abdullah II Ibn Al-Hussein, for allowing to organize this congress under His Patronage.

ICMM also thanks the political and military authorities of the Kingdom of Jordan for their support to the 7th International Conference of the Royal Medical Services and the 4th ICMM Pan Arab Regional Working Group Congress on Military Medicine.

Roger Van Hoof M.D.
Major General (ret)
Secretary General of the ICMM

It gives me great pleasure to welcome you all to the present scientific activities, organized by the Pan Arab RWG under the aegis of ICMM. During these conferences, not only do we have opportunities for relevant work-integrated learning experiences but also recent advances and research by extremely competent and experienced facilitators in the field of Military Medicine. Moreover, it has always been an excellent opportunity for delegates to share ideas, exchange their experiences and expertise in various aspects of field medicine.

Build on the previous successes of the ICMM Pan Arab RWG Conferences in Algeria 2008, Jeddah 2010 and Abu Dhabi 2012, I am certain that the next 4th ICMM Pan Arab Regional Working Group Congress on Military Medicine in Dead Sea - Jordan in November 2014 will not be an exception to the success story, but on the contrary, this congress will be an excellent addition to the successful chains of such events, bearing in mind that it will be organized by competent and experienced, professionals from the Royal Medical Services of Jordan.

Finally, I would like to convey my sincere greetings to all my colleagues in the organization and wish them all every success in the upcoming conference.

Staff Brigadier Matar Saeed Al Neaimi
Commander, Medical Services Corps
Chairman of the Pan Arab Regional Working Group for
Military Medicine

General Information

Registration hours:

Tue: Nov 4, 08:00 – 12:00
Wed: Nov 5, 08:00 – 17:00
Thur: Nov 6, 08:00 – 17:00

Registration Includes:

- Conference Bag (Scientific Program Booklet, Abstract Book CD)
- Coffee Breaks
- Admission to the Exhibition
- Admission to all Scientific Sessions and Symposia
- Admission to Scientific Workshops except the RMS-only or Separate Registration Workshops (Please check the Workshops Section)

Badges:

The Participant's Name Badge serves as an admission pass to the Conference area, Scientific Sessions, Workshops and Exhibition. Participants are kindly requested to keep their Name Badges displayed at all times during the Conference days.

CME (Important):

Badges are Bar-Coded; Please scan your badge upon entry to Scientific Sessions. CME points will be awarded according to scientific sessions attendance.

Badge Colors:

Gold: VIPs and International Guests

Green: Committees

Red: Moderators and Speakers

Yellow: Exhibitors and Sponsors

Blue: General Participants

Brown: Logistic Support Personnel

Grey: Security

Certificates:

A certificate of attendance can be issued to non-RMS participants on Thursday 6 Nov 2014.

RMS Participants can collect their certificates from the Conference Office (KHMC) from 23 Nov - 31 Dec 2014.

Speakers' Room (Ayla Hall - Ground Floor):

Please check your PowerPoint Presentation at the Speakers room at least 3 hours before your scheduled presentation time. If your presentation is scheduled early in the morning, you are kindly requested to check your presentation at the speakers' room the day before.

Program Change:

We can't assume liability for any changes in the program due to external or unforeseen circumstances. Program changes will be announced at the information screens at each Scientific Session Halls Entrance.

Exhibition:

Exhibition opening hours are:

Tue 4 Nov	After Opening Ceremony
Wed 5 Nov	09:00 - 18:00
Thu 6 Nov	09:00 - 18:00

Language:

English is the official language of the meeting. No translation is provided.

Contact Information:

Conference Secretary can be reached via:
Email: rms7conf@gmail.com
Mobile: ++962 79 9071551
Telefax: ++962 6 5823403

Emergency Clinic:

Emergency Clinic is located near the VIP Entrance. For more information please contact the information desk.

Emergency Clinic Tel No:

Changing tomorrow

Astellas has a vision to change tomorrow. Through our commitment to providing patients with hope for a brighter future, we aim to lead the way in our areas of therapeutic expertise focusing where medical needs remain unmet. Through innovation, Astellas will continue to identify and develop new ways to improve the health of patients. Our aim is that we will discover tomorrow's medical solutions to today's healthcare problems. In this, as in everything we do, Astellas is committed to the success that comes from Changing tomorrow.

أكثر من شريحة، أكثر من جهاز، إشتراك واحد، فاتورة واحدة "نت العيلة"

الحزمة	الإشتراك الشهري	السعة	عدد الشرائح (SIMs)
نت العيلة 1	15	7.5	2
نت العيلة 2	25	15	3
نت العيلة 3	40	40	5

- يستطيع المشترك تقسيم السعة "GB" بين الشرائح "SIMs" حسب الحاجة.
- يستطيع المشترك استخدام الشرائح "SIMs" من أجهزة مختلفة ومواقع مختلفة في نفس الوقت.
- يحصل المشترك على أجهزة مجانية تعتمد على نوع الحزمة ومدّة الإشتراك.

* تنطبق على الأسعار 8% ضريبة مبيعات
* بعد اعتماد السعة تخفيض السرعة لـ 64Kbps و 512Kbps على حزمة نت العيلة 3
* لتحميل من المعلومات يرجى الاتصال بمركز خدمات المشتركين على الرقم 1234

GLA 199 JANE (JO/PNA) 04-13

LANTUS® Abbreviated Prescribing Information

1. NAME AND PRESENTATION: Lantus (insulin glargine) injection. Each vial (10 mL), disposable pens (SoloSTAR®) (3 mL) or available systems contains 5.64 mg of insulin glargine per mL corresponding to 100 IU human insulin/mL. **2. THERAPEUTIC INDICATIONS:** For the treatment of adults, adolescents and children of 6 years or above with diabetes mellitus, where treatment with insulin is required. **3. PHARMACOLOGY AND METHOD OF ADMINISTRATION:** Lantus should be administered once daily at any time but at the same time each day. The dosage and timing of dose of Lantus should be individually adjusted. In patients with type 2 Diabetes mellitus, Lantus can also be given together with orally active antidiabetic products. In children older than 6 years Lantus should be given in the evening. When changing from a treatment regimen with an intermediate or long-acting insulin to a regimen with Lantus, a change of the dose of the basal insulin may be required and the concomitant antidiabetic treatment may need to be adjusted. Close metabolic monitoring is recommended. Administration: Lantus is administered subcutaneously. Should not be administered intravenously and must not be mixed with any other insulin or diluted. **4. CONTRAINDICATIONS:** Hypersensitivity to insulin glargine or to any of the excipients. **5. SPECIAL WARNINGS AND PRECAUTIONS FOR USE:** Lantus is not the insulin of choice for the treatment of diabetic ketoacidosis. In patients with renal impairment or severe hepatic impairment, insulin requirements may be diminished due to reduced renal metabolism. In the elderly, progressive deterioration of renal function may lead to a steady decrease in insulin requirements. Particular caution should be exercised in patients with significant stenoses of the coronary arteries or of the blood vessels supplying the brain and in patients with proliferative retinopathy. The warning symptoms of hypoglycaemia may be changed, less pronounced or absent in certain risk groups. **6. DRUG INTERACTIONS:** Substances that may increase susceptibility to hypoglycaemia or reduce the blood-glucose-lowering effect are detailed in the full SmPC. **7. PREGNANCY AND LACTATION:** No clinical data are available. Lactating women may require adjustments in insulin dose. **8. EFFECTS ON ABILITY TO DRIVE:** Patients should take precautions to avoid hypoglycaemia while driving. **9. UNDESIRABLE EFFECTS:** Hypoglycaemia may occur if the insulin dose is too high in relation to the insulin requirement. Lipoatrophy may occur at the injection site. Allergic reactions including redness, pain, itching, hives, swelling, or inflammation. For rare adverse events please consult the full SmPC. **10. OVERDOSE:** may lead to severe and sometimes long-term and life-threatening hypoglycaemia. Mild episodes of hypoglycaemia can usually be treated with oral carbohydrates. **11. STORAGE:** Unopened vial/SoloSTAR® disposable pen should be stored in a refrigerator (2°C - 8°C). It should not be allowed to freeze. Discard if it has been frozen. Open (in use) vial and/or not refrigerated must be used within 28 days after the first use. Also can be kept unrefrigerated for up to 28 days away from direct heat and light. Open SoloSTAR disposable pen should NOT be refrigerated but should be kept at room temperature (below 30°C) away from direct heat and light. It should be discarded after 28 days. **12. PHARMACOLOGICAL PROPERTIES:** ATC Code: A10AE04. **13. MARKETING AUTHORIZATION HOLDER:** Sanofi-Aventis Deutschland GmbH, D 65926 Frankfurt am Main.

BROTHERS
MEDICAL SUPPLIES

Brothers Medical Supplies (BMS) is a leading distribution company that specializes in bringing innovative medical technologies to the Jordan Market. Established in 2004, BMS has shown great success and growth in the past years and is proud to have grown to become one of the leading suppliers of Orthopedic and Surgical instruments.

We partner with the world leading suppliers such as DePuySynthes and assist in improving their businesses through education and networking opportunities.

Our services include:

- Training and development
- Distributing and logistics
- Professional after service support
- Assisting Surgeons in Operations
- Loan sets
- Stock Management

DePuySynthes
COMPANIES OF Johnson & Johnson

We at the DePuy Synthes Companies are inspired by the opportunity to help people return to living active and fulfilling lives. We deliver a broad array of orthopaedic and neurological solutions—inspired solutions that go beyond quality implants and include services, education, instruments, and emerging technologies. <http://www.depuyssynthes.com/>

Advancing healthcare ... together.

Physicians everywhere work tirelessly to bring better health to more people. At GE Healthcare, we're committed to supporting their efforts on multiple fronts. That's why we're collaborating with clinicians around the globe to help establish new diagnosis and treatment management programs for cancer and neurodegenerative diseases. We're helping empower healthcare professionals working to increase patient safety, and developing software that can help make healthcare more intelligent and efficient. Together, we aspire to bring quality care to more people around the world - because there's no time to lose.

Imagination at work.

14:30 - 15:00 313	Bone Graft Reconstruction of Maxillofacial Region Using Conventional Bone Graft Materials and Growth Factors <i>Gilbert Triplett PhD (USA)</i>
15:00 - 15:15 314	Posttraumatic Missile Facial Injuries <i>Tahrir N. Aldelaimi DDS, Maxillofacial Surgery & Laser Surgery (Iraq)</i>
15:15 - 15:45 315	Use of Dental Implant in Reconstruction of Maxillofacial Complex <i>Gilbert Triplett PhD (USA)</i>
15:45 - 16:00 316	Reasons for Failures of Fixed Prosthodontic Works <i>Amjad M. Al Rahamneh DDS, Prosthodontics (Jordan)</i>
16:00 - 16:30 317	Management of Maxillofacial Injuries from Military Combat, Early Through Later Care <i>Gilbert Triplett PhD (USA)</i>
16:30 - 17:00	Coffee Break

17:00 - 18:30 - Session 4

Restorative Dentistry

Moderators: Awni Rehani DDS, Zaid Bqeen PhD, Hani Telfah DDS

17:00 - 17:30 318	Tooth Whitening <i>Faleh Tamimi PhD (Canada)</i>
17:30 - 17:40 319	Analytical Study for Tooth Surface Loss in a Group of Jordanian Population <i>Khatar S. Haddadin DDS, Conservative Dentistry (Jordan)</i>
17:40 - 17:50 320	Effect of Tooth Loss and Denture Wearing on Oral Health-Related Quality of Life <i>Osama Al-Jabrah DDS, Prosthodontics (Jordan)</i>
17:50 - 18:00 321	Rothmond Thomson Syndrome Case Report <i>Thamer Bsoul DDS, Prosthodontics (Jordan)</i>
18:00 - 18:10 322	How Can an Edentulous Jaw be Restored? <i>Mahasen S. Ajarmeh DDS, Prosthodontics (Jordan)</i>
18:10 - 18:20 323	Esthetic Gingiva: An Orthodontic and Periodontic Procedure <i>Mohammed Al-Qudah DDS, Periodontics (Jordan)</i>
18:20 - 18:30	Discussion

Hall B

Mount Nebo Hall 1

09:00 - 11:00 - Session 1

Medicine - Hypercoagulable State

Moderators: Khader Mustafa MD, Ahmad Telfah MD, Abdallah Omeish MD

09:00 - 09:30 324	Cancer and Thrombosis <i>Hikmat Abdel-Razeq MD (Jordan)</i>
09:30 - 10:00 325	Update in Pulmonary Embolism Management <i>Mamoon Zihlif MD (Jordan)</i>
10:00 - 10:30 326	New Oral Anticoagulants in Clinical Practice <i>Hikmat Abdel-Razeq MD (Jordan)</i>
10:30 - 11:00 327	Antiphospholipid Syndrome: 30 Years On <i>Munther Khamashta MD (UK)</i>
11:00 - 11:30	Coffee Break

11:30 - 13:30 - Session 2

Medicine - Advances in Allergy and Oncology

Moderators: Massimo Crespi MD, Ammar Daoud MD, Mansour Karadsheh MD

11:30 - 12:00 328	Allergen Immunotherapy: Past, Present and Future <i>Mansour Karadsheh MD (Jordan)</i>
12:00 - 12:30 329	Recent Advances in Personalized Oncology: Role of Antibodies <i>Stefano Iacobelli MD (Italy)</i>
12:30 - 13:00 330	Antibody Directed Nanoparticles to Improve Targeted Cancer Therapy <i>Pier Giorgio Natali MD (Italy)</i>
13:00 - 13:30 331	Recent Advances in Personalized Oncology: Role of Antibody-Drug Conjugates <i>Stefano Iacobelli MD (Italy)</i>
13:30 - 14:30	Lunch Break

14:30 - 16:30 - Session 3

Cancer Prevention and Early Diagnosis Symposium: S03

Royal Medical Services (RMS)- Mediterranean Task Force for Cancer Control (MTCC)

Moderators: Stefano Iacobelli MD, Kassab Harfoushi MD, Zuhair Shawagfeh MD

14:30 - 15:00 332	Hepatocellular Cancer: A Preventable Disease <i>Massimo Crespi MD (Italy)</i>
15:00 - 15:30 333	Colorectal Cancer Screening <i>Ziad Sharaiha MD (Jordan)</i>
15:30 - 16:00 334	Tobacco Dependence Treatment: The Case for the EMR <i>Feras Hawari MD (Jordan)</i>
16:00 - 16:30 335	Crucial Educational Messages for Patients by Family Doctors for Cancer Prevention <i>Massimo Crespi MD (Italy)</i>
16:30 - 17:00	Coffee Break

17:00 - 18:30 - Session 4

Medicine - Infection and Vaccination

Moderators: Suleiman Mneizel MD, Gaith Al-Hasan MD, Ahmad Al-Khawaldeh MD

17:00 - 17:30 336	Malaria: Current and Future Perspectives <i>David Warell MD (UK)</i>
17:30 - 18:00 337	Malaria In Jordan <i>Khalil Kanani MD (Jordan)</i>
18:00 - 18:30 338	Respiratory Viral Infections among Immunocompromised Patients <i>Wail Hayajneh MD (Jordan)</i>

Pipeline™ Embolization Device

TurboHawk™
Plaque Excision System

The power to redefine aneurysm treatment.

Hall C

Mount Nebo Hall 2

09:00 - 11:00 - Session 1

Laboratory Medicine - Facts & Update on Neuroendocrine Tumors (NET)

Moderators: Maysa Al-Hussaini MD, Fayez Hajjiri MD, Nabih Al-Kaisi MD

09:00 - 09:20 339	Classification of Neuroendocrine Tumors <i>Sylvia Asa MD(Canada)</i>
09:20 - 09:40 340	Grading and Staging Systems for Neuroendocrine Tumors <i>Sylvia Asa MD (Canada)</i>
09:40 - 10:00 341	Approaches to Therapy of Neuroendocrine Tumors <i>Sylvia Asa MD (Canada)</i>
10:00 - 10:30 342	Contribution of Molecular Pathology in Lung Cancer Diagnosis and Treatment <i>Maher Sughayer MD (Jordan)</i>
10:30 - 11:00 343	Next Generation Sequencing in Clinical Diagnostics <i>Abdelghani Tbakhi MD (Jordan)</i>
11:00 - 11:30	Coffee Break

11:30 - 13:30 - Session 2

Laboratory Medicine - PS2 Update on Ovarian Tumors

Moderators: Ismail Matalka MD, Mahmoud Habashneh MD, Nasrat Babouk MD

11:30 - 11:50 344	Recent Advances in the Pathology of Ovarian Epithelial Tumors <i>Mona El Bahrawy MD (UK)</i>
11:50 - 12:15 345	Borderline Ovarian Tumors <i>Mona El Bahrawy MD (UK)</i>
12:15 - 12:45 346	Pre-Analytical Variables in Laboratory Medicine <i>Aparna Ahuja MD (India)</i>
12:45 - 13:30 347	Meet the Expert: Gynaecological Pathology Slide Seminar <i>Mona El Bahrawy MD (UK)</i>

SIEMENS

When labs need a hand, we give them an arm.

With one-of-a-kind VersaCell automation, Siemens answers the need for improved efficiency.

www.siemens.com/versacell

At the heart of VersaCell™ automation is the sample arm, often a blur of motion as it routes samples for testing. But the Siemens VersaCell System does far more than move tubes — it intelligently routes, prioritizes, sorts, tracks, and archives. Most importantly, it helps labs work smarter.

With VersaCell automation, labs can connect two chemistry, immunoassay, and/or integrated analyzers in a customized and consolidated configuration: one tube, one point of entry, one operator, one report. Labs gain the efficiency of greater automated workflow at a price they can afford, in a space they can accommodate. And when needs change, the system easily adapts.

As shorthanded labs face increasing pressure to deliver, the VersaCell System can help boost productivity today and help plan for tomorrow. All because of the unique VersaCell automation design.

Visit www.siemens.com/versacell to see how VersaCell automation can give you a hand when you need it most.

Answers for life.

Thursday 6 November

13:30 - 14:30

Symposium S08

SIEMENS

Immunoglobulin serum free light chains (Freelite®) and heavy chain /light chain specific pairs (Hevylite®) analysis as cancer markers in monoclonal gammopathies

Nuno Barbosa MD (UK)

Moderators: Nazmi Kamal MD, Hassan Annab MD

14:30 - 16:30 - Session 3

Laboratory Medicine - Hematology & Oncology

Moderators: Azmi Mahafzah MD, Salah Jitawi MD, Abdelrazzaq Wraikat MD

14:30 - 15:30

Meet the Expert : Endocrine Pathology Slide Seminar

348

Sylvia Asa MD (Canada)

15:30 - 16:10

Myeloid Neoplasms with Eosinophilia

349

Nazmi Kamal MD (Jordan)

16:10 - 16:30

Quality Indicators & Quality Control in the Pre-Analytical Phase

350

Aparna Ahuja MD (India)

16:30 - 17:00

Coffee Break

17:00 - 18:30 - Session 4

Laboratory Medicine - Free Papers

Moderators: Azmi Dwaikat MD, William Haddadin MD, Luma Fayyad MD

17:00 - 17:10

Muscle Disorders at King Hussein Medical Center: An 8-Year Experience

351

William Haddadin MD (Jordan)

17:10 - 17:20

Impact of Individual Donor Nucleic-Acid Amplification Testing of Blood Donors in Interdicting the Transmission of Transfusion Transmitted HIV, Hepatitis B and Hepatitis C in India

352

Alok Deepak Sen MD (India)

17:20 - 17:30

Congenital Deficiency of Coagulation Factors other than Hemophilia A and B Diagnosed at Princess Iman Research and Laboratory Sciences Center over Four Years

353

Raida Oudat MD (Jordan)

17:30 - 17:40

Flow Cytometric Analysis of Acute Leukemia; A Two Year Experience at King Hussein Medical Center

354

Nabeeha Abbasi MD (Jordan)

17:40 - 17:50

Flow Cytometric Diagnosis of Chronic Lymphocytic Leukemia (CLL)

355

Hala A. Al-Sukhni MD (Jordan)

Gynecology - Gynecological Cancers

Moderators: Issam Latafeh MD, Hassan Malkawi MD, Mahmood Dabbas MD

09:00 - 09:20 371	Imaging in Endometrial Cancer <i>Mamdouh Mahfouz MD (Egypt)</i>
09:20 - 09:40 372	Histopathology of Endometrial Cancer <i>Mona El- Bahrawy MD (UK)</i>
09:40 - 10:00 373	Surgical Treatment of Endometrial Cancer <i>Christhardt Köhler MD (Germany)</i>
10:00 - 10:20 374	Role of Radiotherapy in Endometrial Cancer <i>Imad Jaradat MD (Jordan)</i>
10:20 - 10:40 375	Recent Advances in Ovarian Cancer <i>Ghadeer Abdeen MD (Jordan)</i>
10:40 - 11:00 376	Disease-Based Therapy of Women Diagnosed with Cervical Cancer <i>Christhardt Köhler MD (Germany)</i>
11:00 - 11:30	Coffee Break

11:30 - 13:30 - Session 2

Obstetrics

Moderators: Mazen El-Zibdeh MD, Ghalib Al-Tayeb MD, Mohammed Hiasat MD

11:30 - 12:00 377	Remarkable People, Remarkable Events! <i>Zaid Kilani MD (Jordan)</i>
12:00 - 12:30 378	Birth Asphaxia <i>Edward Bell MD (USA)</i>
12:30 - 13:00 379	Modern Management of Gestational Diabetes Mellitus (GDM) <i>Hassan Shehata MD (UK)</i>
13:00 - 13:30 380	Lupus and Pregnancy <i>Munther Khamashta MD (UK)</i>
13:30 - 14:30	Lunch Break

14:30 - 16:30 - Session 3

Gynecology

Moderators: Yosuf Tahat MD, Abdelrahman Al-Basher MD, Ziad Shraideh MD

14:30 - 15:00 381	Stopping the Epidemic of IVF Multiple Births whilst Maintaining the Pregnancy Rate <i>Timothy John Child MD (UK)</i>
15:00 - 15:30 382	Lymph Node Dissection in Gynecologic Oncology: Pelvic and Para-Aortic Anatomy and Common Anatomical Abnormalities <i>Christhardt Köhler MD (Germany)</i>
15:30 - 15:50 383	Premature Ovarian Failure <i>Mazen El-Zibdeh MD (Jordan)</i>
15:50 - 16:10 384	Preimplantation Genetic Screening (PGS) : Does it Increase IVF Success? <i>Timothy John Child MD (UK)</i>
16:10 - 16:30 385	Training Opportunities in the UK <i>Hassan Shehata MD (UK)</i>
16:30 - 17:00	Coffee Break

17:00 - 18:30 - Session 4

Gynecology - Free Papers

Moderators: Mohammed Qudah MD, Naser Malas MD, Amal Shamas MD

17:00 - 17:10 386	Spontaneous Pregnancy Rate after Hysteroscopic Removal of Endometrial Polyps in Infertility patients: Experience at King Hussein Medical Center <i>Ziad Shraideh MD (Jordan)</i>
17:10 - 17:20 387	Antenatal Diagnosis of Esophageal Atresia with the Upper Neck Pouch Sign: A Case Report <i>Vera Amarín MD (Jordan)</i>
17:20 - 17:30 388	Gestational Thrombocytopenia / Pregnancy with Mild Immune Thrombocytopenic Purpura: A Low Risk Pregnancy <i>Amer Gharaibeh MD (Jordan)</i>
17:30 - 17:40 389	Relationship between Reactive Oxygen Species (ROS), Malondialdehyde (MDA), Total Antioxidants (TAS), Leukocytes and Round Cells in Seminal Plasma and their Effect on Sperm Parameters and ICSI Outcome <i>Wael Al-Ma'ani MD (Jordan)</i>
17:40 - 17:50 390	Effectiveness of Sacrocolpopexy at King Hussein Medical Center <i>Basil Khreisat MD (Jordan)</i>
17:50 - 18:00 391	Cancer of Female Genital Tract: A Clinical-Pathological Review at King Hussein Medical Center <i>Ehab Al-Rayyan MD (Jordan)</i>
18:00 - 18:10 392	Women's' Attitude Toward Menstruation and Menstrual Suppression in Tafelah Province - Jordan <i>Suhair Wreikat MD (Jordan)</i>
18:10 - 18:20 393	Case-Based Review of MRI Cervical Cancer Staging <i>Suha Ghoul MD (Jordan)</i>

SAFETY FIRST IS SAFETY ALWAYS

BD Vacutainer® Push Button Blood Collection Set

- Safety with the push of a button
- One handed in vein safety activation

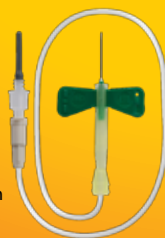

AN ESTIMATED 61% OF
NEEDLESTICK INJURIES OCCUR
AFTER USE & BEFORE DISPOSAL¹

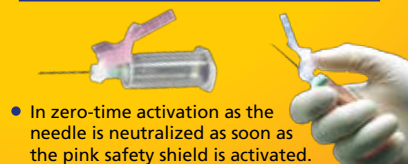

Now Available with Convenient
Pre-Attached Holder

BD Vacutainer® Safety-Lok Blood Collection Set

- The slim, easy-to-handle design enhances control and flexibility
- Large wing size permits improved positioning during use
- Blood flashback is seen clearly through translucent shield

BD Vacutainer® Eclipse™ Safety Needle

- In zero-time activation as the needle is neutralized as soon as the pink safety shield is activated.
- The safety shield is integrated, and is not an accessory to the needle.
- Activation of the shield can be confirmed visually and heard with a "Click!"

Doing now what patients need next

Combating serious diseases
such as cancer is our speciality.

Our innovations help millions
of people by alleviating their suffering
and improving their quality of life.

We give them hope.

changing the way we care for diabetes

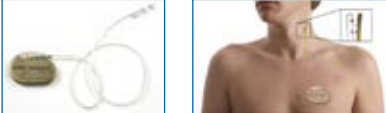

At Novo Nordisk, we're proud of the insulin therapies and delivery systems we've developed – and continue to develop – because those innovations make life better for millions of people around the world. But people with diabetes need more than medicine and needles. They need the guidance and support to take control of their own care.

That's why we pioneered DAWN, an initiative to promote the treatment of psychosocial issues and empower people with diabetes in the management of their own care. We also sponsor Nurse Dialogue events, worldwide, where tools, therapies and education are shared in open forums. Addressing the needs of the person behind the disease, combined with proper medicines, support and education, are the cornerstones of effective diabetes treatment. By taking a leadership role in all these areas, we hope to change the way we all care for diabetes.

changing diabetes

Refractory Epilepsy and VNS Therapy

VNS Therapy is indicated for patients with difficult-to-treat epilepsy that cannot be controlled with medication alone and has not responded for multiple drugs.

VNS offers effective control of seizures and well tolerated by patients including children. Today, more than 70,000 patients worldwide with difficult-to-treat epilepsy have been treated with VNS Therapy, enabling them to lead a more normal and fulfilled life.

SIEMENS

Test smarter. Run faster.

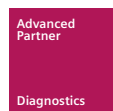

Siemens answers unite clinical and workflow excellence to help you thrive.

[siemens.com/test-smarter](https://www.siemens.com/test-smarter)

Clinical diagnostic testing is part science and part business. Which means its overall performance depends on how well these two integral parts work together. Siemens Healthcare Diagnostics can make that happen. We offer answers that combine the extensive menu of tests you want with the leading-edge technology you need to run them efficiently. Not only do we deliver assays to support your clinical excellence, we commit all our technical know-how to developing innovative diagnostic solutions that increase

productivity. What's more, we provide the education, services, and support that keep you running at your absolute best. So you can unite and transform both clinical and workflow performance to deliver the highest-quality patient care.

Find out how Siemens helps you work better by working with you. Visit [siemens.com/test-smarter](https://www.siemens.com/test-smarter).

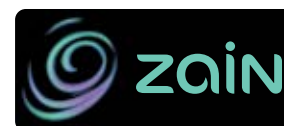

Answers for life.
