President's Welcome Note

Dear Colleagues and Friends,

It gives us great pleasure to invite you to the **8th International Conference of The Royal Medical Services** to be held at **King Hussein Bin Talal Convention Center - Dead Sea - Jordan**, under the **Patronage of His Majesty King Abdullah II Ibn Al Hussein** during the period **15 -18 November 2016**.

During the conference, The Royal Medical Services of Jordan will host the 7th Regional Assembly of the Pan Arab Regional Working Group of the International Committee of Military Medicine with the participation of Pan Arab Regional Working Group Member States National Delegates to discuss updates in Military Medicine and coordinate ongoing and future cooperation projects.

We are honored to host this international conference after the great success of previous RMS Biennial International Conferences. It will be attended by more than 4000 participants; local, regional and international in the fields of Medicine, Dentistry, Pharmacy, Nursing, Allied Health Professions, and has a specific focus on Military Medicine to identify the changes in military health care practices needed to prepare military health care providers for the new challenges ahead.

Many esteemed International Guest Speakers from all over the world from different specialties and backgrounds have been invited to give lectures and participate in panel discussions covering Conference Theme Innovation, Motivation, Integration as well as conduct a myriad of workshops.

Previous RMS Conferences have had active participation from many International Organizations and Societies, such as the World Health Organization (WHO), International Committee of Military Medicine (ICMM), Pan-Arab Regional Group of Military Medicine (PARWG), The Royal College of Surgeons of England (RCS Eng), Royal College of Physicians (RCP Eng), World Federation of Hemophilia (WFH), AO Spine, AO CMF, International Committee of Red Cross (ICRC), The International Committee of Spinal Cord Injury (ISCOS), The National Arab American Medical Association (NAAMA), Center for Disease Control And Prevention (CDC), International Diabetes Federation (IDF), U.S. Armed Forces Health Surveillance Center (US AFHSC), U.S. Military HIV Research Program, Walter Reed Army Institute of Research (WRAIR), Sidra Medical and Research Center, PONSETI INTERNATIONAL, and Thomas Jefferson University. We have similar prestigious partnerships for this upcoming conference.

Jordan Health Exhibition (JoHEX) will be held parallel with the conference as the place for presenting the latest advancements in health industry; equipment, machinery and medical supplies. I would like to thank our many Sponsors for contributing generously by taking part in the exhibition or by sponsoring Guest Speakers for the many workshops at hand.

Beyond the myriad scientific activities, we hope you enjoy your stay at the Dead Sea, where the weather this time of year is excellent, and also get a chance to explore many other wonders of Jordan. A visit to Petra will give you the opportunity to know more about the beautiful Rose City along with its stunning scenery and unique history.

We wish you all a memorable scientific, social experience and a most enjoyable stay in Jordan.

More than 600 branches across 5 continents

Through our global network you can comprehensively tap into different markets, especially the rich MENA region, in which we are not only the oldest bank, but also the most trusted for proving time and time again that we are one of the safest banks in the region.

arabbank.com

Arab Bank

Established in 1930, Arab Bank headquartered in Amman, Jordan has one of the largest global Arab banking networks with over 600 branches spanning five continents. Arab Bank's extensive network covers key financial markets and centers such as London, Dubai, Singapore, Geneva, Paris, Frankfurt, Sydney and Bahrain. Across its global network, the Bank provides a wide range of financial solutions through its main business lines which entail Consumer Banking, Corporate and Institutional Banking and Treasury, serving individuals, corporations and other financial institutions.

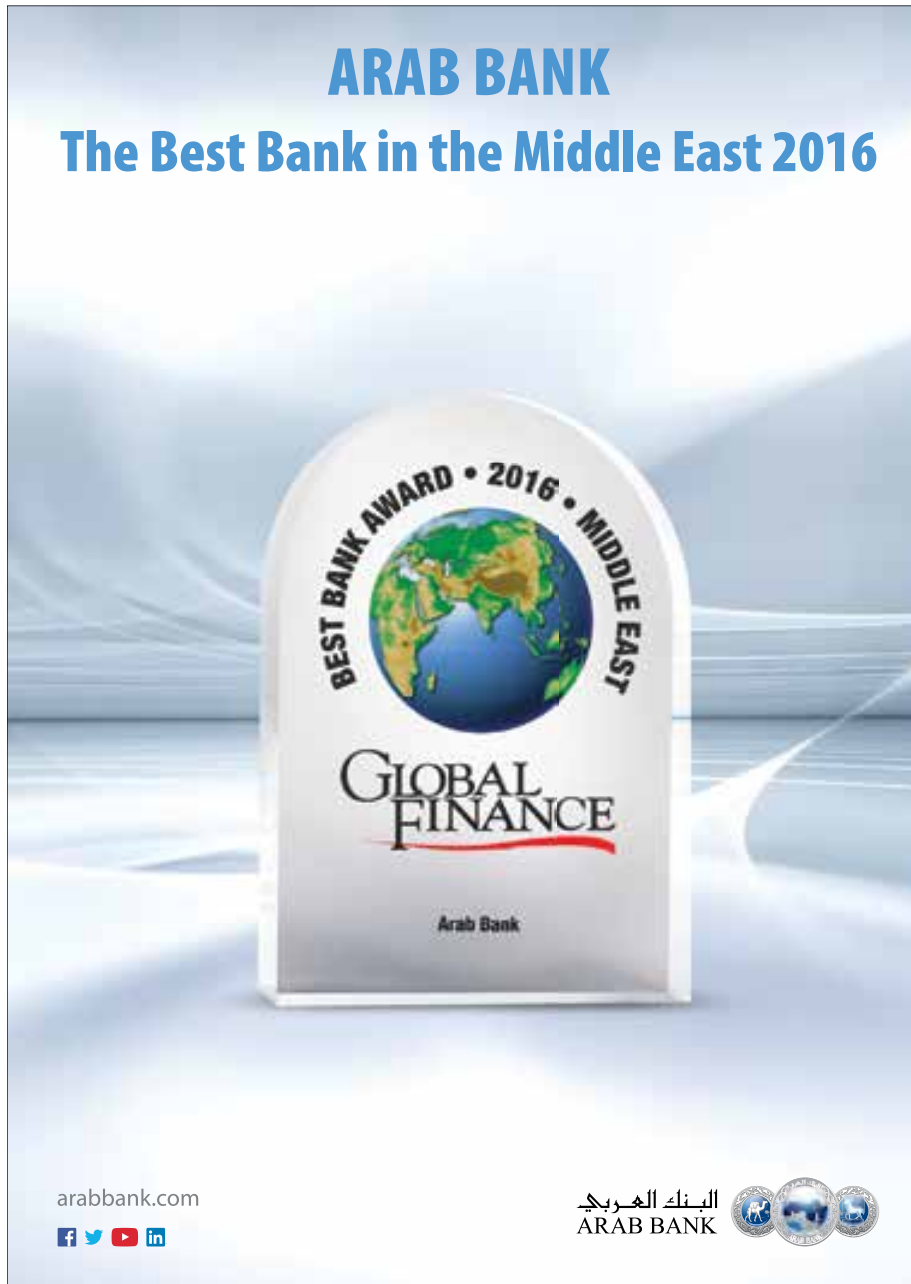

As one of the leading banks in the MENA region, Arab Bank plays an integral role in financing vital infrastructure projects and strategic industries throughout the region. True to its founding vision of enabling the Arab world to reach pre-eminence, Arab Bank continues to be an engine of economic growth and an enabler of social and community development.

In the first half of 2016, Arab Bank Group reported net profit before taxes and provisions of USD 561.1 million. Assets grew to reach USD 48.3 billion and owners' equity equaled USD 8.1 billion.

Arab Bank received several international awards and recognitions from prestigious organizations, most notably the awards for Best Bank in the Middle East 2016 from Global Finance magazine, Best Trade Finance Bank in the Middle East from both Global Finance and EMEA Finance magazines, Best Trade Bank in the Middle East from Trade & Forfaiting Review and Best Cash Management Services in the Middle East from EMEA Finance. The Bank also received Best Corporate Social Responsibility award in the Middle East from EMEA Finance magazine and Best Bank in Social Media award in the Middle East and Africa from Global Finance magazine.

The list of Arab Bank's awards also includes Best Bank in Jordan by Global Finance, Euromoney, EMEA Finance, The Banker Middle East and Asiamoney magazines. In addition, the Bank received several awards from Global Finance magazine including: Best Bank in Yemen, Best Trade Finance Bank in Jordan, Algeria and Yemen, Best Treasury and Cash Management Bank in Jordan and Morocco and Best Foreign Exchange Provider in Jordan. Arab Bank was also recognized by the World Union of Arab Bankers as the Biggest Global Arab Banking Network.

Important Information

Registration Hours:

Tue: 15 Nov 2016: 08:00 – 13:00
Wed: 16 Nov 2016: 08:00 – 17:00
Thur: 17 Nov 2016: 08:00 – 17:00

Registration Includes:

- Conference Bag (Scientific Program Booklet, Abstract Book CD)
- Coffee Breaks
- Admission to the Exhibition
- Admission to all Scientific Sessions and Symposia
- Admission to Scientific Workshops except the RMS-Only workshops or Separate Registration Workshops (Please check the Workshops Section)

Registration Area: King Hussein Bin Talal Convention Center

Badges:

The Participant's Name Badge serves as an admission pass to the Conference area, Scientific Sessions, Workshops and Exhibition. Participants are kindly requested to keep their Name Badges displayed at all times during the Conference days.

CME (Important):

Badges are Bar-Coded; please scan your badge upon entry to Scientific Sessions. CME points will be awarded according to scientific session's attendance.

Badge Colors:

- **Gold:** VIPs
- **Green:** Committees
- **Royal Blue:** Speakers
- **Red:** Moderators
- **Yellow:** Exhibitors
- **Blue:** Participants
- **Orange:** Logistics
- **Grey:** Security
- **Brown:** Media

Certificates:

- A certificate of Attendance can be issued to **non-RMS participants** on **Wednesday & Thursday 16 -17 Nov 2016**.
- RMS Participants certificates from the Conference Office (KHMC) during the period Dec. 2016 – Apr. 2017.

Speakers' Room (Afra 1 - Ground Floor):

- PowerPoint Presentation checks 3 hours before scheduled presentation time.
- Early morning scheduled presentation check the day before.

Jordan Health Exhibition (JoHEX):

Opening Hours: 09:00 - 18:00,
16 Nov – 17 Nov.

Language:

English is the official language.
No translation is provided.

Emergency Clinics:

- **KHBTCC** located near VIP Entrance. For more information please contact Information Desk.
- **Kempinski Hotel Ishtar Dead Sea Clinic.** For more information please contact Hotel Reception.

Information Desk:

Information Desk located in the Convention Center Main Entrance.

Mobile Phones:

Delegates are requested to switch off or silence their mobile phones while in the Scientific Session Halls.

Lost Property:

Lost and found properties should be reported to the Operations Room at the Main Entrance

Press and Media Center:

The Press and Media Center is located at Aqaba Lounge - Sea Floor

Transportation:

Doing now what patients need next

Combating serious diseases
such as cancer is our speciality.

Our innovations help millions
of people by alleviating their suffering
and improving their quality of life.

We give them hope.

Now's our time to inspire the future of healthcare together

Engineering success. Pioneering healthcare.

At Siemens Healthineers, we are committed to becoming the inspiring partner of healthcare providers worldwide, enabling them to deliver high-quality, affordable patient care in the demanding value-based environment.

As one of the world's leading medical technology providers, we are continuously expanding our portfolio of medical imaging, laboratory diagnostics, and advanced therapy solutions as well as further developing our digital and enterprise services and molecular diagnostics portfolio –

all with the ultimate goal of helping providers achieve their success – clinically, operationally and financially.

We lend our unique engineering skills and pioneering spirit to exploring opportunities and developing strategies together with our customers – as their inspiring partner, making their healthcare business thrive.

Now's our time to inspire the future of healthcare together.
Engineering success. Pioneering healthcare.

SPEED, INNOVATION, TEAMWORK

Al Faisaliah Healthcare Systems is number one company in providing healthcare institutes in Jordan with a comprehensive range of products and services to serve the following clinical segments: Critical Care and Emergency, Operating Room Intelligent Solutions, Oncology, Interventional Cardiology, Diagnostic Imaging Solutions, and Women Health Care.

Few of FHS Breakthroughs in the Jordanian Market

- ↑ **Oncology Treatment Center / Queen Alia Military Hospital**
Turnkey project (building and equipment)
- **King Hussein Medical Center**
Installed fully digital MRI 3.0 T with In-Bore Solution
- **King Abdullah University Hospital**
Installed Philips Clarity feature (lowest X-Ray dosage in the industry) for the three newly installed Biplane Cath Lab Systems
- **Farah Medical Campus**
*Fully equipped radiology department with Philips systems
Completed the largest Ambient Experience installation world wide*
- **The Arab Medical Center**
Installed Philips patented noise free CT image - IMR
- **Al Khalidi Hospital and Medical Center**
The first Breast MRI affiliation between KHMC and Lahey Hospital
- ↓ **Afia Radiotherapy & Nuclear Medicine Center**
Latest technology in Radiation Therapy

Al Faisaliah Healthcare Systems
الفيصلية للأنظمة الطبية

Upcoming Projects

Oncology Treatment Center

FHS is in the process to start execution of the first oncology treatment center in the north (King Abdullah University Hospital) as a turnkey project with two *Linear Accelerators* (design, building and equipment).

King Hussein Cancer Center (KHCC)

FHS has signed a contract to supply KHCC new twin towers with state-of-the-art *Linear Accelerators* manufactured by Elekta and *Intra-operative MRI* solution manufacture by Philips.

Beta Drug Store is a Jordanian Pharmaceutical and Medical Equipment company founded in 2007 by an expert in the Pharmaceutical industry who has vast experience with multinational Pharma companies.

Fields of experience:

Sales Management, Marketing Management, Supply Chain Management, Distribution and Regulatory know-how.

We operate in Jordan to provide Health Care Professionals with innovative products to fulfill unmet needs in terms of Quality, Safety, and cost-effectiveness, and to ensure better access and affordability of innovative Pharmaceutical and Medical solutions by most patients.

Also, we want to utilize our "Excellence" standards to build successful strategic alliance with our selected principals, and achieve leadership position by ascertaining the "Specialized Business Unit" concept building on our experience and knowledge.

16:30 - 17:00	Coffee Break

Before it became a medicine,
It was 5,000 researched compounds.
87 different protein structures.
500,000 lab tests.
1,600 scientists.
80-hour workweeks.
14 years of breakthroughs and setbacks.
36 clinical trials.
8,500 patient volunteers.
And more problems to solve than we could count.
Before it became a medicine,
It was an idea in the mind of a Pfizer scientist.
Now it's a medicine
That saves lives every day.

Brothers Medical Supplies

About Us:
Brothers Medical Supplies (BMS) is a leading sales, marketing and distribution company that specializes in bringing innovative medical technologies to the Jordan Market. We partner with the world leading suppliers and assist in improving their businesses through education and networking opportunities.

Corporate Information:
BMS was established in the year 2004, with its head office located in the center of the Jordanian capital, Amman. BMS has branch offices and sales representatives throughout the country.

BMS has shown great success and growth in the past few years and is proud to have grown to become one of the leading suppliers of products to various industries and organizations. Some of clients include: The Jordanian Armed Forces, Ministry of Health, University Hospitals and Public and Private Hospital Organizations in the field of Orthopedic and Surgical instruments.

BMS's highly experienced team is highly trained and committed with excellent local market knowledge. This dedicated work force carefully looks after necessities of our valued customers for products that we exclusively represent.

Our services include:

- Training and development
- Distributing and logistics
- Loan sets
- Assisting Surgeons in Operations
- Professional after service support

BMS's partners are leaders in their field, both globally and locally:

DEPUY SYNTHES SOLUTIONS
Product Portfolio

Now's our time to inspire the future of healthcare together

Engineering success. Pioneering healthcare.

At Siemens Healthineers, we are committed to becoming the inspiring partner of healthcare providers worldwide, enabling them to deliver high-quality, affordable patient care in the demanding value-based environment.

As one of the world's leading medical technology providers, we are continuously expanding our portfolio of medical imaging, laboratory diagnostics, and advanced therapy solutions as well as further developing our digital and enterprise services and molecular diagnostics portfolio –

all with the ultimate goal of helping providers achieve their success – clinically, operationally and financially.

We lend our unique engineering skills and pioneering spirit to exploring opportunities and developing strategies together with our customers – as their inspiring partner, making their healthcare business thrive.

Now's our time to inspire the future of healthcare together.
Engineering success. Pioneering healthcare.
